Cover

Sikorsky CH-53E heavy-lift helicopter, being developed for the Navy and Marine Corps, flies over Connecticut during test program. About 70 are expected to be procured during the next decade by the services. Aircraft tail was modified after a recent accident and now has a horizontal stabilizer opposite the canted tail rotor. Sikorsky photo by Jim Tobin.

## Special Report:

### Helicopters Meet New Challenges

Page 30	Civil, military needs fuel helicopter growth
39	Industry future keyed to civil market
41	Iran seeks helicopter development, production
46	Demand continues strong on North Sea
48	Helicopters spark Pacific oil search
49	Heavy-lift technology advance snagged
53	New helicopter combat roles planned
57	Soviets deploying helicopter assault forces
62	Marines seek added speed, range
63	Army expands helicopter training center
69	NATO helicopter market expanding
70	Aging equipment performing ASW role
77	Funding squeeze impacts on R&D efforts
88	Combat survivability rated above speed
97	Skycrane used to rig stadium roof cables
100	Rotor research gets new impetus
108	NASA, Army pursue rotor system research
110	Army expands helicopter training center
113	Europe maintains high helicopter technology
115	Helicopter lift may break port jam
121	Helicopter logging eases ecology loss

### Air Transport

20	Attendant wage demands block National talks
21	Freight rate zone system urged
21	U. S. plans bilateral talks with Soviets
22	CAB unit opposes no-frills fare
22	NTSB hits hazardous materials procedures
23	August profit brightens Pan American outlook
24	IATA delegates facing major challenges
25	House unit would boost airport, airway funding
26	Airline traffic, July, 1975
27	Airline Observer
28	Tests set for vortex prediction system

### Management

14	Helicopters sweep Port Said mines
15	Europeans study joint helicopter development
17	Bill would tighten renegotiation process

### Space Technology

16	Hurricane Eloise photographed by SMS-1
19	NASA reorganizes Manned Space Flight Office
19	Helios second perihelion finds higher temperatures

### Missile Engineering

18	U. K. seeks missile replacements abroad
